

British Sign Language **Bible Translation Project**

**The language
of the Bible
becomes
sign language**

What will your legacy be?

When people make a Will, they are concerned to ensure financial provision for those left behind and that is right. We are asking people to help to ensure a spiritual legacy for Deaf people who use British Sign Language and who do not yet have a Bible in their own language.

Leave a lasting legacy behind you

The words of the Bible have been read throughout the centuries and inspired many people in their daily living and witness. It has been translated into many languages so that people all over the world can read it in their 'heart' language.

The BSL Bible Translation Project has been set up to translate the Bible into British Sign Language (BSL) so that Deaf people who use BSL can also experience this valuable book. Translation is carried out by teams of translators and the translation is filmed onto digital media so that it can be watched by people via their TVs, computers or mobile phones.

The BSL Bible Translation Project is funded by charitable and individual donations and gifts left to us by supporters like you. Please help us to continue this valuable work by

making a bequest to the project in your will. Such a legacy would make a lasting impact on so many people both now and in the future.

Having access to the Bible in their own language would be life-changing for Deaf people in enabling them to know about the love that God so freely gives.

If you are thinking of making a will and would like to include a legacy for the BSL Bible Translation Project, please show this leaflet to your solicitor. If you have already made a will, it is easy to add a gift to the BSL Bible Translation Project in a codicil. Please ask your solicitor for advice.
